PROFILE:

Laravel Web Developer passionate about building scalable and user-friendly web applications. Experienced in full-stack development using Laravel, MySQL, and JavaScript. I enjoy turning ideas into real-world projects such as e-commerce systems, admin dashboards, and management platforms. Currently focused on improving backend architecture, authentication systems, and API development.

PROJECTS

FOODFLOW - RESTAURANT MANAGEMENT & ORDERING SYSTEM

Laravel, MySQL, Tailwind CSS, AJAX, Brevo API, Stripe(payment)

- Restaurant onboarding with admin approval workflow
- Full online ordering system with order status tracking
- Automated email notifications (Brevo) for restaurant updates and approvals

SMARTBIZ – BUSINESS MANAGEMENT SYSTEM

Laravel, MySQL, Tailwind CSS, JavaScript, laravel-Breeze

- Client and project management system with structured tracking
- Invoice generation and expense management for business operations
- Secure authentication

EVERYTHING STORE – E-COMMERCE PLATFORM

Laravel, MySQL, JavaScript, Tailwind CSS, Chart.js

- Guest checkout system (no account required to shop)
- Product catalog with categories and filtering
- Admin dashboard with real-time notifications system and sales analytics using Chart.js

EXPERIENCE:

END-OF-STUDIES INTERNSHIP – MERN STACK DEVELOPER

April - June 2023

- Developed a full-stack tech agency web application using the MERN stack (MongoDB, Express.js, React, Node.js)
- Built features such as contact form system, user authentication, Email verification and admin dashboard
